## Welcome to the Armada 'Status' Collection

Thank you for choosing Armada.

Our Status Collection contains a wide range of door and window hardware, ranging from Stainless Steel through to Black Iron, Brass etc.

All items shown are available from stock for next day delivery around the country. If our stock levels are insufficient for a particular order, we will still endeavour to deliver within 2-3 days.

Although there are many products shown within these pages, ironmongery is an incredibly broad field, and there are thousands of items that we can't show. If you want something that isn't shown, please just ask; we buy from over 50 manufacturers and importers around the world, and have a large ironmongery library.

Our friendly staff are happy to help you with any ironmongery query - unusual items, practical issues - just ask!

For the real ironmongery connoisseurs, we have included 10 pages of images featuring various branded products available through ourselves. These include names like Frank Allart, Valli & Valli, Rocky Mountain etc. These top quality ranges are all displayed in our dedicated ironmongery showroom in Cambridge.

Do give us a call; we will be happy to help you out in any way possible.
